UNQUESTIONABLY AMBITIOUS

The Indian growth story no longer needs to be validated and verified as India is already on way to become one of the largest solar hub globally in the coming years. Driving on the surge is the growing renewable energy industry with vision on the future and systematic year on year growth.

Renewable Energy India Expo celebrated 14 glorious years of Global entrepreneurship and unparalleled industry collaborations during September 2021.

India is on its' ambitious path to implement the world's largest Renewable Energy expansion program. It's growing stature and successful leadership position at International Solar Alliance (ISA) has prompted even the countries outside of the tropics in entering the alliance.

INDIA'S MARKET POTENTIAL

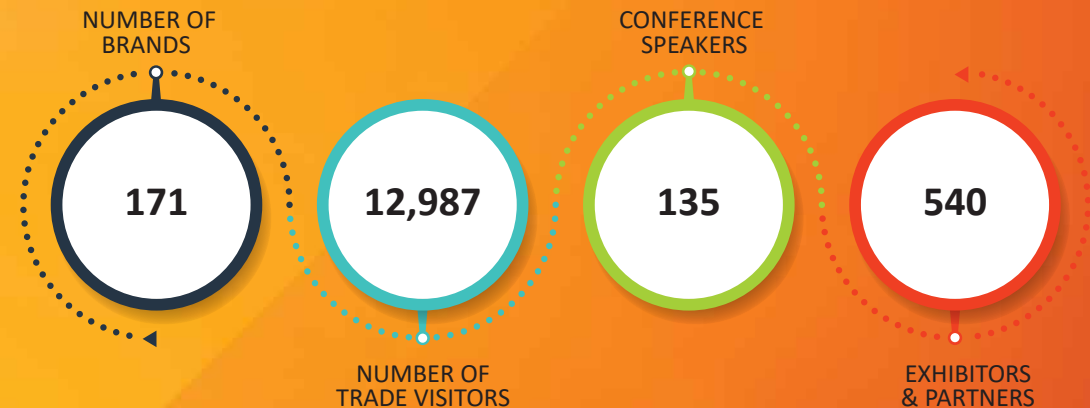

- Central Electricity Authority (CEA) estimates, by the Yr. 2030, the share of renewable energy generation would increase from 18% to 44%
- India is targeting 500 Gigawatt (GW) of installed renewable energy capacity by the Yr. 2030 of which 280 GW (56%) is expected from Solar & 140 GW (28%) from Wind

- 4th most attractive RE market in the world
- 5th largest renewable energy installed capacity in the world
- 4th largest wind power installed capacity in the world
- 5th largest solar installed capacity in the world
