PLEXOS

Energy Exemplar

Modeling the Future of Energy

the market leader in energy simulation software

PLEXOS® is the world's most powerful energy market simulation engine providing analytics and decision-support to modelers, generators, and market analysts— offering flexible and precise simulations across electric, water, gas and renewable energy markets .

Model Your Way

Configure PLEXOS with a limitless collection of scenarios, customized constraints, conditional variables, physical elements, simulation horizons, durations of simulation period, phases in the integration and model resolution.

- *Renewable Project siting and sizing analysis*
- *Round the clock /Hybrid Renewable Modeling & Integration*
- *Resource planning & System Adequacy*
- *Price forecasting & market analysis*
- *Financial analysis & asset valuation*
- *Solar & Battery storage integration with custom configurations*
- *Nodal & zonal Analysis , Transmission planning*
- *Hydro Optimisation & Ancillary services*
- *Optimized demand response, EVs, and other commodities*
- *Policy & impact analysis – Scenario Analysis*
- *Risk Analysis and Assessment*
- *Net Zero & Emission Planning*

Energy Exemplar is the industry leader in energy market simulation software. Our software suite, headlined by PLEXOS®, is trusted thousands users around the world for a wide range of applications, from short-term analysis to long-term planning studies. Integrated across electricity, gas, and water systems, the PLEXOS® platform provides exceptional decision insights to our customers.

PLEXOS offers a revolution in simulation software and modeling technology, so you can outpace the rapidly changing world

The world is changing faster than ever before. Accelerating digitization initiatives, policy shifts and regulations targeting decarbonization are taking effect, shifting consumer energy patterns, and uncertainty fueled by the pandemic are all challenging traditional planning assumptions that underpin trillions of dollars in investments.

Energy Exemplar is here to help you analyze complex scenarios so you can optimize your decision-making and confidently navigate the future.

With PLEXOS , our revolutionary modeling and simulation software, customers can analyze possibilities for the most accurate outcomes, so they can make optimal decisions for their business today, and the future .

MESSAGE

MESSAGE

On behalf of Informa Markets in India, I am happy to welcome you to the 15th Crystal edition of Asia's largest and most prestigious expo in the RE space, the Renewable Energy India Expo 2022, from September 28 to 30 at India Expo Mart, Greater Noida, Delhi-NCR.

Since its existence, the REI Expo has been helmed as a comprehensive and influential epicenter of relevant and conducive talks by think tanks, experts and new-age thinkers on the whole gamut of issues pertaining to the renewable sector, its challenges, and coming up with eco-friendly technological solutions which aid the growth of the industry as well as supporting the globally acknowledged ESG mainstay. Market insights, including the Indian legal structure and regulatory design, commercial applications of renewable energy resources, and paradigm shifts in the industry, will be discussed.

REI has the capacity to build an innovation heritage and ideological currency and bring technological breakthroughs in the sector through cooperation, mutual understanding, and shared interests. The REI Expo platform aims to promote bilateral talks between countries and multipolarity and international congruence to meet green energy goals. It is geared up to share relevant insights gained in the global renewables market through its 3 days of the power-packed conference with the theme 'Unlocking the Era to Net Zero Emissions'.

I take this opportunity to thank all our exhibitors, visitors, experts, sponsors and associations for the faith and confidence rendered toward the show. We also sincerely thank key associations – Indian Bio Gas Association (IBA), Bloomberg New Energy Finance (BNEF), National Highway of Electric Vehicles (NHEV), World Business Council of Sustainable Development (WBCSD), Council on Energy, Environment and Water (CEEW), Bridge to India (BTI), Aly India Renewable Energy Association (AIREA) and among international participation, from the United States Agency for International Development (USAID, Indo Latin American Chamber of Commerce (ILACC), CleanTech Business Club and Indo German Energy Forum (IGEF) for their unstinted support towards the show.

\On behalf of Informa Markets in India, I wish all participants at REI Expo 2022 a super successful show!

Yogesh Mudras
Managing Director
Informa Markets in India

CONFERENCE AGENDA

Opening Ceremony Agenda

Date: 28th September 2022

1045 – 1100 Hrs	Registration/Ensemble along with Networking
Inaugural Session	**Unlocking the Era to Net Zero Emissions – How leaders are making successful changes in the ecosystem!**
1100 – 1120 Hrs	**Welcome Address:** (Lamp Lighting and National Anthem) **Mr. Yogesh Mudras**, Managing Director, Informa Markets in India
	Industry Address:
1120 – 1130 Hrs	**Mr. Vishal Mehta,** Managing Director & Partner and Head of Energy, Boston Consulting Group (BCG) India
	Special Addresses by:
1130 – 1137 Hrs	**Ms Karen Klimowski,** Acting Minister Counselor and USAID/ Mission Director
1138 – 1145 Hrs	**H.E Mr. Cameron MacKay**, High Commissioner of Canada in India
1146 – 1153 Hrs	**Dr Steffen Koch,** Minister and Head of Department for Economics & Global Affairs, Embassy of the Federal Republic of Germany in India
1154- 1201 Hrs	**Mr Arnaud Lion**, Chargé d' Affaires a.i. Embassy of the Kingdom of Belgium in New Delhi
	Keynote Address:
1208 – 1218 Hrs	**Shri. Manu Srivastava, Principal Secretary, Government of Madhya Pradesh**
	Closing address:
1218 – 1225 Hrs	**Mr. Rajneesh Khattar**, Group Director, Energy portfolio, Informa Markets in India

Opening Ceremony will be followed by Walk- The – Floor

*Invited, confirmation awaited

28th September, DAY 1

CRYSTAL BANQUET HALL	ARYABHATA	BHABHA	RAMAN
1100-1230 Hrs **Opening Ceremony**	**1215-1330** **'Indian Manufacturing Turns Green - Nation's Top Power Consumers Share Their Journey'** Where do we stand on the adoption of renewable energy by the large consumers? What is driving this change? - How has the experience been? What are some of the significant successes and pain points? - Is procurement of green attributes in addition to green power a current or future goal of the industry? - What is the level of interest in a better RE generation profile / dispatch curve (for e.g., via storage)? Is industry willing to pay more for such power? - Is procurement of open access power via ISTS in active consideration? - Does industry have the power to drive favourable regulatory change? - What is needed to drive adoption / growth of RE in the SME and residential sectors?		**1230-1345** **New Business Destination - Latin America** **Welcome & Keynote Address:** **Mr. Raj Kumar Sharma** Founder President & CEO Indo Latin American Chamber of Commerce **Topic 1:** **The Brazilian story of Biofuels; Challenges and Opportunities for India** **H.E. Mr. André Aranha Corrêa do Lago,** The Ambassador Embassy of Brazil in India **Topic 2:** **1. Non-conventional renewable energy** **2. Green hydrogen** **3. Energy transition** **H.E. Mr. Juan Angulo,** The Ambassador, Embassy of Chile in India **Topic 3:** **Costa Rica's strengths on Renewable Energies and progress on Green Hydrogen and Electric Mobility** **H.E. Mr. Claudio Ansorena**
	Session Chair: Shri. Manu Srivastava, Principal Secretary, Government of Madhya Pradesh Moderator: **Dr. Anuvrat Joshi**, Head – Business Development (India) - Cleantech Solar **Co- Moderator: Ms. Jyoti Gulia,** Founder – JMK Research & Analytics (Co-moderator) **Mr. Dinesh Yadav,** Director and CEO – Arvind Envisol Ltd. **Mr. Ashish Maheshwari,** Southeast Asia Head – Energy (Strategic Sourcing & Procurement) – Cargill **Session Partner CLEANTECH SOLAR**		**Montero,** The Ambassador Embassy of Costa Rica in India **Topic 4:** **Uruguay's progress in the Adoption of Renewable Energy** **H.E. Mr. Alberto A. Guani,** The Ambassador, Embassy of Uruguay in India **Topic 5:** **Secrets to Business Success** **Mr. Ameya Pradhan,** Knowledge Partner, Indo Latin American Chamber of Commerce **Topic 6:** **Presentation by Industry expert** Speaker/TBD **Topic 7:** **Presentation by Industry expert** Speaker/TBD **Question & Answer** **New Business Opportunities in Latin America** **Mr. Raj Kumar Sharma,** Founder President & CEO, Indo Latin American Chamber of Commerce **Vote of Thanks** **Mr. Vinod Tiwari,** Co-Founder & Vice President, Indo Latin American Chamber of Commerce **Session Partner:Indo Latin American Chamber of Commerce (ILACC)**
Lunch 1300 - 1400 Hrs			

1400 -1500 Hrs
BNEF Talks on:
Wind Energy
Financing Renewables
Electric Vehicles & Corporate Sustainability
Mr. Atin Jain, Senior Associate ---- Wind
Mr. Rohit Gadre, Senior Associate ---- Renewable Financing
Ms. Komal Kareer, Associate ---- Electric Vehicles
Mr. Shantanu Jaiswal, Head of India research ---- Corporate Sustainability
Session Powered by BNEF

1400 -1500 Hrs
Indian Cities Progressing Towards Net Zero
At present, cities of the world are home to more than 50% of the global population contributing to 70% of global CO2 emissions yet covering only about 3% of the earth land surface. This will further increase with growing urbanization resulting into about 70% of world population residing in cities by 2050, leading to even higher emissions in business-as-usual scenario. This makes cities "main cause of the climate change" yet central to the solutions in fight against the climate change and achieving the net-zero future goals.
In recent years many countries including most of the South Asia countries have put forth ambitious plans to cut down emissions and achieving 'net-zero'. India too has declared to bring down carbon intensity of its economy by more than 45% by 2030 and becoming 'net-zero' by 2070 in the recently concluded COP 26 at Glasgow. In the given context where fast and rapid decarbonization needs to occur, cities have a leading role to play. India has been one of the fastest growing economies in the world. Much of this growth has been driven by more than 4400 cities and towns, contributing to 63% of the country's GDP, which is estimated to reach to 75% by 2030. This highlights that cities are vital to economic growth for the developing nations like India. Therefore, there is a need to adopt a balanced approach between economic development and controlling carbon emissions while aiming towards net-zero cities. The efforts must also be given for achievement of sustainable development goals for the citizens living in such cities.

1400 -1500 Hrs
Women Empowering the Cleantech Decade
Goals & Objectives:
The Session will focus on Women's participation in forming the green energy landscape with adoption of new technologies in the CleanTech space.
Women are the mainstream users and often producers of energy and without their involvement, renewable energy projects risk being inappropriate, and failing.
Women are also the main users of household energy in developing and industrial countries; they influence or make many family purchases related to energy; they are experienced entrepreneurs in energy-related enterprises; and women within organizations are effective promoters of new technologies and active lobbyists for environmentally benign energy sources.
Innovation is one of the main challenges in the CleanTech Industry, and Women could be the key to a new idea and different way of thinking. With technology constantly improving, it's essential to consider new ways of optimizing the infrastructure and monitoring the energy.
While women do experience a number of constraints in their involvement with technology, the reality is that their role in technology has been largely overlooked. Achievement, Success, Accomplishment, Attainment, Competence. These are all terms

1400 -1500 Hrs
Presentation Sessions
Innovations and Technology the way forward to RE..!
The session will have presentations on latest technologies and innovations, case studies and products by the most prominent technical partners in the industry.
Presenters:
Time: 1401-1411
Mr. Harsh Goenka, Sales Director, EMEA and India, Solargis S.R.O
Topic: 'Investigating underperformance of Indian solar assets'
Time: 1412-1422
Mr.Anand Chandrashekaran, Senior Energy Market Analyst, Energy Exemplar
Topic: "PLEXOS : Modeling the Future of Energy "
Time: 1423-1433
Mr.Vineet Kumar, Country Manager, ANTAI TECHNOLOGY CO,. LTD
Topic: Single-Axis Solar Trackers-Antai's Latest Technologies
Time: 1434-1444 Hrs
Mr. Pavan Mathur, Head Technical, Longi Solar
Topic: Distinguishable advantages of Bifacial Technology maximizing performance
(Case Studies from Asia: Evident gain in Energy Yield data and performance)
Time: 1445-1455
Mr. Sergi Bosque, Regional Manager India, Middle-East & Africa (IMEA) region, GreenPowerMonitor, a DNV company
Topic: " Data driven solutions for

	USAID through its five-year South Asia Regional Energy Partnership (SAREP) is providing technical assistance to cities on clean energy. There have been several sector specific programs from the government, also supported by international development organizations in the past to enhance sustainability measures in the cities. There have also been city wide plans developed on climate change, energy efficiency, or green electricity supply. SAREP's technical assistance to cities is aimed at quick start of the implementation process and taking cities on the trajectory of becoming future 'net-zero energy'. The priority sectors will be on renewable energy, energy efficiency, electric vehicles, and waste to energy with focus on new implementation approaches and business models, demonstration, financing mechanisms, capacity building, network of cities, private sector engagement, etc. The objective of this event will be to discuss the following: •What discourse cities can take to be net zero? •Which sectors can be prioritized for net zero? •Which interventions (technology, regulatory, implementation models) successful elsewhere can be prioritized for quick start of the implementation? •What are the tools, experience, and best practices available for cross-learning between cities? **Panelists:** Welcome address **Ms. Mary Tyler Holmes**, Acting Director, Indo-Pacific Office, USAID/India **Panel discussion** **Moderated by: Mr. Anurag Mishra,** Senior Clean Energy Specialist,	associated with breaking barriers and propelling through the glass ceiling. The future I green and it has to be created equally by Women and Men on this planet. Let's build this Green Future Today, Together as #TogetherWeAreStronger. **Honorary Chair: Dr. Vandana Kumar,** Additional Secretary at MNRE * **Chair/ Moderator: Dr. Rashi Gupta**, Managing Director, Vision Mechatronics; CBC Chair of Energy Storage Hub & Vice-Chair for India **Co-Moderator: Tomasz Slusarz**, Founder & Vision Streamliner at CleanTech Business Club Invited Speakers: **Ms. Mani Khurana**, Senior Energy Specialist and Task Team Leader at World Bank; Head of the World Bank's Battery Storage Program in India; CBC Energy Storage Hub Member **Dr. Shivani Sharma**, Principal Consultant at Hitachi Energy **Ms.Ritu Lal**, Senior Vice President at Amplus Solar **Ms.Shikha Upadhayay**, Marketing Head India, LONGi Solar **Mr. Raj Singh Niranjan**, Founder at Trans India Law Associates (TILA); Legal Advisor at International Solar Alliance (ISA); CBC Legal Adviser **Mr.Uday Narang**, Founder and Chairman, Omega Seiki Mobility **Mr.Urvish Dave**, Co-Founder at URON Energy **Ms. Lou Del Bello**, Special Project	**boosting the green energy transition"** **Time: 1456-1506** **Mr.Pradeep Srikanthan.** Business Head, Redington Limited **Topic:"Use of Digital Technology platform to create innovative distribution strategies for Solar PV Industry"** **SESSION POWERED BY DNV**

	USAID/India Panelists **Ms. Shruti Narayan**, Regional Director South and West Asia, C40 cities o Roadmap for cities to achieve net zero and global experience on net zero **Mr. Deepak Tiwari**, Research Fellow, WRI India o Preparedness of Indian cities and actions underway for cities to become future net zero **Mr. Amit Sharma**, Director and Head – Sustainability Business, India, Schneider Electric o Key technological solutions to achieve net zero for cities in India **Mr. Shounak Ray**, Business Development Lead South Asia, Green Building Program, IFC o Assessment tools for cities and financing the transition **Summary and vote of thanks** **Mr. Sumedh Agarwal,** Deputy Chief of Party, USAID SAREP **Session Powered by USAID**	Editor, The Third Pole	
1500 - 1600 Hrs **RE Master Talks!** **Visionary Talk by the Industry Stalwarts.** **Mr. Tulsi Tanti,** Founder, Chairman and Managing Director of Suzlon Group **Dr. Milind Kulkarni**, President-PV Manufacturing, Reliance New Energy Solar **Senator Dr. PKC Bose,** Vice Chairman & Managing Director, ENERCON INDIA	**1500 - 1615 Hrs** **Decarbonization of Rail Transport in India** Rail transport plays a key role in global transport accounting for about 8% of passenger movement and 9% in freight. It is one of the most energy-efficient and among the lowest carbon-intensive way of mobility. Countries are increasingly planning a modal shift to rail transport to reduce transport sector emissions and increase cost competitiveness of freight transport. Moreover, to further reduce the emission footprint and become energy self-sufficient, several rail operators across the globe are undertaking sustainable energy initiatives and aspiring for future net zero. The rail operators and rail infrastructure	**1510 - 1610 Hrs** **Digital footprint of E-mobility in Cities & Connected E-Highways** **The session will dwell on**: EV Navigation software, Geo-fenced e-highways, theft-proof EVs, connectivity, mobile apps and digital platforms for fleets. GPS, GeoSpatial, tracking, AI-ML battery subscription platforms. **Moderator: Mr.Abhijeet Sinha,** National Program Director, Ease of Doing Business Project Director – NHEV, President – COPs of India **Speakers:** **Mr. Shashank Jaiswal**, Country General Manager - South Asia, UNL	**1510 - 1620 Hrs** **Energy storage: Key to realize renewable power's full potential** **Way forward for deployment in India** The Indian power grid's flexibility requirements are predicted to triple between 2020 and 2030, compared to an increase of 40% in other markets including the US, the EU, and even China, according to IEA estimates. Energy storage will be one of the critical technology solutions to enhance grid flexibility as India works toward its ambitious goals of installing 500 GW of non-fossil fuel capacity and supplying 50% of its energy needs with renewable sources

	management companies are taking "avoid-shift-improve" approaches to become net zero. Transitioning away from the use of petroleum fuels, utilization of green electricity, and optimization of demand through energy efficiency are common actions across railways globally in this pursuit. Several countries have also begun to deploy hydrogen trains or have announced plans to do so soon. The rail companies in India are setting a benchmark on decarbonization. Indian Railways, the world's largest rail network with a span of over 68,000 kms and over 1.2 million employees have set a target to become Net Zero by 2030 thereby avoiding annual emissions of 60 million tons. To achieve emission reduction, Indian Railways is taking several initiatives for energy demand management, shift from diesel to electricity, greening of electricity supply, and offsetting emissions. USAID's South Asia Regional Energy Partnership (SAREP) is assisting Indian Railways in its decarbonization vision by supporting energy efficiency, renewable procurement and planning, solar rooftop deployment, and clean energy financing. The urban metro rail companies and regional rapid transit systems are not far behind with green rating systems and onsite renewable generation being increasingly adopted in new construction. The decarbonization of rail transport presents immense opportunities for new technologies and solutions for electricity generation, load balancing, and energy efficiency improvement. **Objectives** **The objective of this event include:** 1. Indian Railways' ambition to attain net-zero carbon emissions by 2030	**Ms. Thalia Skoufa**, Transport Practice Manager, Energy Systems Catapult Birmingham, UK **Mr. Uddhav Kumar**, Co-founder and CEO, LynkIt **Mr. Nikhil Kumar**, President-Geospatial at MapmyIndia **Mr.Indrranil Roy Choudhuri**, AVP - Marketing & Corporate Communications at Kreate **Mr. Praveen Kumar**, Managing Director, Alektrify Pvt Ltd. **Session Powered by NHEV**	by 2030. Through the session on 'Energy storage: Key to realize renewable power's full potential' at REI Expo 2022, WBCSD will present the current market status and host a roundtable discussion with government and industry veterans on the leading use cases for which energy storage is likely to make commercial sense, emerging and existing technology trends and important policy or market levers required to accelerate growth of the energy storage market in India. The target audience for this discussion will be all stakeholders in the power sector, including corporate end-users, energy utilities, RE developers, storage solution providers, financial organizations and government agencies. **Moderator: Ms. Surbhi Singhvi, Manager, E**nergy Transformation, World Business Council for Sustainable Development Panelists: **Alexander Hogeveen Rutter,** Private Sector Specialist, International Solar Alliance **Ashwin Gambhir**, Fellow, Prayas (Energy Group) **Jyoti Gulia**, Founder, JMK Research and Analytics **Lalit Wasan**, Head of Department (Power Management & Battery Energy Storage Systems), Tata Power Delhi Distribution Limited **Naveen Nagpal**, GM (Renewable Energy, Energy Storage and E-mobility), BSES Rajdhani Power Limited **Tony Dorazio**, Vice-President -

	2. Highlight technology solutions and new innovations for decarbonization of rail transport 3. Sharing knowledge, experience, and best practices in rail transport **Panelists:** **Welcome address** **Ms. Durra Elmaki,** Minister Counselor for Commercial Affairs (Acting), Embassy of the United States of America Net zero energy vision and actions by Indian Railways **Technical Session** **Moderated by Mr. Pramod Kumar Singh**, Advanced Energy Lead, USAID SAREP Net zero energy vision and actions by Indian Railways **Mr. Manish Gupta**, Executive Director, Electrical Energy and Management (EEM), Railway Board, Indian Railways Clean energy actions by Metro Rail Companies **Mr. Arvind Kumar Singh**, Chief Electrical Engineer, Uttar Pradesh Metro Rail Corporation **Mr. Malay Saha**, General Manager, Delhi Metro Rail Corporation Technology solutions for decarbonizing rail transport **Mr. Rajeev Joisar**, Managing Director, Alstom Group **Mr. Mark Kammerer**, Sales and Business Development Director, Off-road Ballard Power Systems **Closing Remarks** **Mr. Anurag Mishra**, Senior Clean Energy Specialist, USAID/India **Session Powered by USAID**		International Growth, Hydrostor **Session conetent partner WBCSD**
1600 - 1630 Hrs **Networking break**	**1615 - 1630 Hrs** **Networking break**	**1615 - 1730 Hrs** **Netoworking break**	**1615 - 1730 Hrs** **Netoworking break**

1630 - 1730 Hrs

Unlocking clean energy demand to achieve net-zero

Objective: With the emphasis on Net-Zero, this session would discuss new opportunities to increase the use of RE across sectors. We would hear from RE technology providers, financiers, discoms and representatives from high-value industries like cement and steel.

Talking points: session would cover topics like non-electric use of RE, DRE for livelihood, industrial decarbonization, open access etc.

Takeaways: Net Zero would not be achieved by solely focusing on conventional applications. The session would unveil new areas for RE adoption. This will open up new business opportunities for companies, product innovation and suggestions for policymakers to allow such solutions.

Panelists: Mr. Sunil Kothari, Sales Lead APAC, Energy Exemplar
Mr.Hubert Sugeng, Director Engineering, BlueWave-AI
Mr. Naveen Nagpal, Asst. Vice President, BRPL
Mr.Randeep Bora, Vice President, SunSource Energy
Mr.Karan Chadda, Head, Business Development, FourthPartner Energy
Mr.Ashish Tiwari, CEO, Kosher Climate India Pvt. Ltd.
Mr. Sharad Kumar, Chief of Power Systems & Energy,TATA Steel

Session Powered by CEEW

1630 - 1730 Hrs

Digitilsation & Renewables..!

The session will talk about the role of technology in enhancing the performance the of PV panels…

Moderator:Ms. Sangeetha Suresh Associate Director – Market Intelligence, BRIDGE TO INDIA

Panelists:
Mr.Nalin Kumar Sharma, President - Asia, Middle East & Pacific at Ecoppia
Mr. Vinod Tiwari, Global Head- BD and Partnerships - Power Ledger
Mr. Rajesh Mallaya, COO, Prescinto
Mr. Vikas Mathur, Country Manager-India, 3E
Mr.Sandeep Pathak, Country Head – India & Asia Region, QOS Energy

1630 - 1730 Hrs

Economic Corridor - Affordable & Green mobility incentives

The session will dwell on : EV infra financing with Solar powered sources, discounted EVs for fleet operations in NHEV, breakeven of EV infra CapEx, utilisation revolution of utilities, Hybrid financing models, govt incentives and subsidies.

Moderator: Mr.Abhijeet Sinha, National Program Director, Ease of Doing Business Project Director – NHEV, President – COPs of India

Speakers:
Shri Abhishek Chaudhary, VP - Corporate Affairs | PM GatiShakti Lead Technocrat *
Smt. Shipra Misra, CEO & MD - Delhi Research Implementation & Innovation Foundation (DRIIV), Delhi Cluster of Principal Scientific Advisor to Govt of India
Mr. Deepanshu Mangla, Director-Technical Operation, Mangla Refimix Pvt. Ltd.
Mr.Rajesh Kumar, Director Marketing, EATON Power

Session powered by NHEV

1630 - 1730 Hrs

Floating Power Plants, opening up new markets for scaling up renewable energy generating capacity

Goals & Objectives:
During this session, we will take the height of the current state of the Floating PV industry, probe for the main hurdles for faster development & adoption of the technology and understand the learnings from trend-setting successful case studies in this nascent and promising segment. We will hear from Developers, Manufacturers, Clients and Installers and learn 1st hand of their experiences. #TogetherWeAreStronger to turn this 280 GWp potential into reality.

Chair/ Moderator: Karel de Winter, Director Floating PV, Phelan Energy Group; CBC Co-Chair of Floating PV & CleanTech Hub
Co-Moderator: Dharmendra Kumar, IHS Markit
Invited Speakers:
Mr. Siddhant Agarwal, CEO at Quant Solar*
Mr. Deepak Usha Devi, MD & CEO, Ciel & Terre India
Mr. Sachin Rele, CEO, Autonic Energy Systems P. Ltd.
Mr.Partho Ganguly, Business development Head India, Sungrow FPV Sci. & Tech. Co., Ltd.

1830 - 2100 Hrs
Networking Evening
Crystal Banquet Hall

29th September , DAY 2

1100 - 1200 Hrs
New business and financial models to accelerate the solar & cleantech growth in India
Goals & Objectives:
CBC Financial & Investor Hub's objective is to accelerate the energy transformation globally, using his wide range of resources through his members to promote technologies and projects and connect them to investors with the goal of scaling up cleantech investments from billions to trillions.
The energy transformation requires a world-wide deployment of existing green technologies such as wind and solar but also the development of new solutions to decarbonize difficult sectors and to fill the gap to achieve Net Zero by 2050.
As renewable energies are penetrating deeper in our energy mix and our daily life, they progressively become the backbone of our energy system, and become the opening to the electrification of our uses. A great coherency between all technologies is therefore created, bringing new business models to enable sector coupling.
The target audience for this session are technology providers, project developers and investor in green technologies such as Hydrogen, Batteries, EV, solar and wind.

1100 - 1200 Hrs
Circular Economy stimulating Material Autonomy - a step towards 'Atmanirbhar Bharat
Session Pointers/Discussion points:
Readiness of PV module manufacturers / importers to encompass Extended Producer Responsibility
•Fair-minded to accept Solar PV panel waste as part of Electronic-waste
•Accelerate R&D in developing and devoted funding of indigenous eco-friendly recycling pilot technologies
•Supporting formation of Producer's Management Body to handle country's Solar energy waste
•Developing a Certification programme to brand PV manufacturers as responsible recyclers
•Extending Viability Gap Funding for pilot recycling plants owing to high CAPEX
Who should attend:
a) Central Pollution Control Board's certified E-waste recyclers
b) Central and State Pollution Control Board officials
c) Officials of Ministry of Environment, Forest and Climate Change, Ministry of New and Renewable Energy, NITI Aayog and members of Task Force set up by these govt. bodies
d) Manufacturers of Solar PV modules
e) Entrepreneurs / Start-ups
Moderator: Mr. Jaideep Malviya, Managing Director - Malaviya Solar Energy Consultancy, Board Director -

1100 - 1200 Hrs
Long Duration Battery Storage – Opportunities for U.S. and India Collaboration
The main objectives of the technical session will be to bring out perspectives on collaboration along the following themes:
• Technology solutions
• Cost trajectory for technologies and pathways to expedite commercialization
• Safety and security of ESS especially at grid-scale
• Building eco-system for ESS
Agenda:
The session will entail a mix of speakers from the technology and business sides to explore mutually beneficial opportunities and possibly establishing a platform for future discussions. USG participants may include interagency representatives including technical experts from DOE's Office of Electricity as well as National Labs. On the Indian side, along with Ministry of Power, it will be pertinent to engage Department of Science & Technology and NITI Aayog for the discussions. Participation of the U.S. and Indian companies add value to bring in the business discussions.
Speakers:
Mr.Mahmoud (MJ) Jardaneh, Energy Attaché, U.S. Embassy New

During this session, we will take the height of the current state of the energy transformation in India and see what are the new business models currently happening in the market, either in the power sector, or in other key sectors. We will hear from Developers, Financial Advisor, Investor Clients and learn 1st hand of their experiences, and together we will discuss how to make sure that by 2030 India will meet its climate goal of a 45% reduction by unit of GDP as #TogetherWeAreStronger **Honorary Chair: Shri K.S.Popli**, Former CMD of Indian Renewable Energy Development Agency (IREDA); CBC Honorary Co-Chair for India **Chair/ Moderator: Mr.Karim Megherbi**, Founding Executive Director, Orisun Invest: CBC Co-Chair of Financial & Investor Hub **Co-Moderator: Mr. Tomasz Slusarz**, Founder & Vision Streamliner at CleanTech Business Club Invited Speakers: **Mr.AK Jain**, Former MD Rajasthan Elect and Instrumentation Ltd **Mr. Anunay Shahi**, VP - Corporate Finance (Equity/M&A) at ReNew Power **Dr Anuvrat Joshi**, Head Business Development India, Cleantech Solar **Dr Ashvini Kumar**, Former MD SECI (Solar Power Corporation of India) **Mr. Manish Gupta**, Director and Chairman at Insolation Energy **Mr. Manu Bishnoi**, Director at Technique Solaire, India	International Solar Energy Society **Panelist:** **Mr Bharat Bhut**, Director, Goldi Solar **Mr. Swapnil Walunj,** Head Marketing, Borosil Renewables Ltd. **Mr. Arvind Poswal, R**esearch Analyst, CEEW **Mr.Sumit Kumar,** Head Product Management, Adani Solar **Bhupendra Singh Rawat** , Head - SCM at Renewsys India Pvt Ltd (Enpee Group) **Mr.ALN Rao,** CEO, Exigo Recycling		Delhi **Dr. Killian McKenna**, Research Engineer IV, Grid Planning and Analysis Center **Mr. Ghanshyam Prasad**, Chairperson, Central Electricity Authority, Ministry of Power **Dr. Rahul Walawalkar**, President, IESA & MD, CES (India) **Ms. Durra Elmaki,** Commercial Officer,U.S. Commercial Service **Dr. Imre Gyuk,** Energy Storage Research, U.S. Department of Energy **Mr. Matt Harper,** Chief Commercial Officer, Invinity Energy Systems **Mr. Yashwant Mahadevan**, Vice President (APAC and Middle East Region), EOS Energy Enterprises **Session Powered by DOE**

Session Powered by CleanTech Business Club			
1205 - 1320 Hrs **Innovations and Technology the way forward to RE..!** The session will have presentations on latest technologies and innovations by the most prominent technical partners in the industry. **Time: 1206- 1216** **Mr. Vikas Bansal**, COO-International, GameChange Solar **Topic: "Integration of smart algorithms with single axis tracker to boost the power generation of solar power projects"** **Time: 1218-1228** **Mr. Sai Charan,** Technical Director, Jinko Solar **Topic: "TOPCon-Penetrating & Path Breaking PV Technology"** **Time: 1230-1240** **Mr.Sunil Thamaran**, VP & MD Enphase India **Topic - "How technology can accelerate India's residential solar growth"** **Time: 1242-1252** **Mr. Nimish Jain,** CEO Airtouch Solar India **Topic: "Automated Panel Cleaning; Trend and Outlook"** **Time: 1254-1304** **Mr. Dheeraj Malani,** Chief Growth Officer, Oriano Clean Energy Pvt. Ltd	**1210-1310 Hrs** **Business Opportunities for AgriPV in India** Agriculture serves as the backbone of India. Bringing innovation and applying emerging technologies is one of the crucial goals for agritechnology projects in India. In the past few years, the Government of India has started emphasising and commercialising agriculture in innovative ways like Agriphotovoltaic (AgriPV). The large-scale combination of agriculture under photovoltaic systems seems promising. According to a study by the German research institute Fraunhofer, just 1% of India's agricultural land would suffice to install around 630 GW of additional photovoltaic capacity using so-called agrivoltaics. This session brings together international and national experts to discuss recent developments in India and Europe and gives an insight into this promising market segment. Key Questions/Discussion points - Agrivoltaics scenario in India and on an international level. - Potential business cases? - Implications for the solar developer as well as on farming practices? - Which agrivoltaic plants have been commissioned lately? **Welcome Address: Dr. Nicole Glanemann, Deputy Head of Division,**		**1210-1310 Hrs** **Technical standards for solar BOS components** **Brief:** Accelerating technology changes and intense market competition have brought immense commercial pressure on the solar industry. In absence of clear technical standards and certification regime, - Balance of Systems (BOS) components, including transformers, junction boxes, cables, mounting structures, module cleaning systems, earthing and lightning systems bear most of the brunt of cost cutting. It has been shown by several studies that faulty BOS equipment selection and installation, accounting for around 40% of solar project cost, has a disproportionate impact on power output. **Agenda** 1. Standards for BOS equipment 2. Equipment selection criteria followed by developers and EPCs 3. Performance challenges 4. Key areas/ equipment where standards need to be strengthened **Moderator:Mr. Mridul Chadha,** Associate Director – Consulting, BRIDGE TO INDIA **Panellists:** **Mr. Bharath Reddy Yellasiri**, Additional General Manager, SECI

Topic: "Utilization of Solar Parks for C&I" **Time: 1306-1316** **Mr. Deepak Zade,** Asst. Vice President – Industry Service: Green Energy and Sustainability, TÜV SÜD South Asia Pvt. Ltd. **Topic: "Solutions to ensure quality, safety & sustainability of renewable energy assets"** **Time : 1317-1327** **Mr. Hardik Vyas,** GM Business Development, Enerparc **Topic: "Innovations that help reduce LCOE in C&I Segment"** **Time: 1328-1338** **Ms. Kathrin Sumser,** Underwriter, Green Tech Solutions, Munich Re **Mr. Vishal Purohit,** Property Underwriter, Green Tech Solutions, Munich Re **Time: 1339-1349** **Mr. Alok Kumar**, Market Area Manager- Renewables, DNV **Topic: "Major Trends and Innovations in Renewables"** **Time :1349-1359** **Mr. Devendra Sikka,**Sr. Consultant **Mr.Vivek Kumar,** Application Development Manager OTT HydroMet / Kipp & Zonen **Topic: "Innovative product – SMP12 and Razon+** **Awareness – Do's and Don'ts to improving environment data quality at solar sites** **Topic: " Bankable module and Reduced Risk with PV warranty Insurance"**	Federal Ministry for Economic Affairs and Climate Action (BMWK), Germany **Moderator:** **Ms. Luz Alicia Aguilar**, Senior Project Manager International Affairs, German Solar Association (BSW-SOLAR) **Speakers:** **Mr. David Wedepohl**, Managing Director International Affairs, German Solar Association (BSW-Solar) **Dr. Martin Lux**, Head of Energy Team, KfW Development Bank Delhi Office **Ms. Suruchi Kotoky**, Senior Associate, BTG Legal **Mr. Vivek Saraf**, CEO & Co-Founder, SunSeed APV **Mr. Siddharth Goel,** Senior Policy Advisor, International Institute for Sustainable Development (IISD) **Mr. Sascha Krause-Tünker**, CFO, NEXT2Sun **Mr. Subrahmanyam Pulipaka**, CEO, National Solar Energy Federation of India (NSEFI) **Session Powered by IGEF**		**Mr. Mathusudhana S K,** Senior Vice President - Head Operations, Blupine Energy **Mr. Satish Pandey,** Head Module Testing and Analytics, Mahindra Teqo **Mr. Mehul Sharma,** Director (India) TBEA Session Powered by Bridge to India
Lunch 1300 -1400 Hrs			

1530 -1730 Hrs **REI AWARDS**	**1410 - 1510 Hrs** **Energy Storage for C&I Sector in India** **Session Objective:** Indian large-scale storage market is at exponential growth phase with multiple announcements and deployments. There are more than 500 MW of energy storage capacity at installed or installation stage in India. There are multiple energy storage projects have been commssioned for commercial and industrial customers. Several businesses are now utilising renewable energy storage systems as a backup for their industry or building in order to ensure quality and continuous power supply.The energy storage system will be used to address four major issues: 1. Solving power quality and reliability issues to avoid revenue loss due to interrupted manufacturing 2. Reducing diesel consumption, by adopting Advanced Energy Storage as a back-up 3. Developing Rooftop Solar + Energy Storage to supply evening peak power 4. Energy cost savings through open access & energy storage Energy storage deployment in the C&I sector also needs less policy intervention. With an appropriate business case, the sector can grow to 30-50 GWh by 2030. Hotels, resorts, hospitals (all critical infrastructure), shopping malls, multiplexes, and batch-manufacturing industries like textiles, plastics, foundries, and steel industries will be the early adopters for this segment. **Moderator:Dr. Rahul Walawalkar,** President, IESA & MD, CES (India)**r/panelists:** **Mr. Sreyamsa Bairiganjan**, Renewable Energy Expert, World Bank **Mr. Ayush Misra**, Co-Founder, CEO,		1500- 1600 Hrs **Session Moderator: Lt Col, Monish Ahuja,** President, CLEAN Intoduction to DRE and Sharing of Experience by different States **Setting the context: Ms Nidhi Sarin,** Programme Head – IGEN Access, GIZ **Keynote address – Dr. Vandana Kumar,** Additional Secretary, MNRE Experience-sharing by DRE adopters / users / user groups including women-led DRE enterprises from Uttar Pradesh, Meghalaya, Odisha, Jharkhand, Himachal Pradesh, Maharashtra **Update by Mr. J K Jethani,** Sr. Director, MNRE Closing Remarks and Way Forward and next steps – **Dr. Vandana Kumar**, Additional Secretary, MNRE Vote of thanks – **Ms.Rekha Krishnan**, CEO, CLEAN **Session Powered By Clean Network** **Closed Door Event/ only by invite**

	Ampere hour Energy **Dr. Rashi Gupta**, Managing Director, Vision Mechatronics **Mr.Yaron Etzion,** Director (BD), Growing Greener Innovations **Mr. Sudhir Pathak (Head- Central Design & Engg (CDE) +QA),** Solar Rooftop Business, Hero Future Energies **Who should attend:** Renewable companies, battery manufacturers, energy storage technology providers, power electronics and inverter providers, Li-Ion battery assembling companies, commercial establishments, and industry participant **Session Partner Hero Furture Energies**		
	1520 - 1720 Hrs (2 Hrs) **Global Green Hydrogen Conference** **1520-1550 Hrs** **Inaugural session –** **Chief Guest - Shri Bhagwanth Khuba,** Minister of State, Ministry of New and Renewable Energy **Dr. Mahesh Sharma,** Member of Parliament, Gautam Buddh Nagar, UP **Mr. Pranav R Mehta,** Chairman, NSEFI **Mr. Deepak Gupta,** Hon. DG, NSEFI **Mr. David Wedepohl,** Managing Director International Affairs, BSW (German Solar Association) **Mr. Srivatsan Iyer,** Global CEO, Hero Future Energies **1550-1630 Hrs** **Green Hydrogen Manufacturing, Storage and Transportation** **Mr. Alok Sharma,** Executive Director and Head, Centre for High Technology MoPNG **Mr. Arnava Sinha,** Vice President, GreenKo **Mr. Sandeep Kashyap,** COO, ACME **Mr. Kapil Maheshwari,** Leader	Networking Break	

	Renewable energy and Green Hydrogen ecosystem Development, President, Reliance Industries Limited **1630-1710** **Demand Side Scenario / Market for Green Hydrogen** **Mr. Deepak Gupta**, Hon. DG, NSEFI **Dr. R.K. Malhotra**, Hydrogen Association of India **Prof. Ardeshir Contracto**r, The Ohio State University **Mr. VS Kowthamraj**, L&T* **Prof PC Ghosh**, Indian Institute of Technology, Bombay* **05:10 – 05:20 PM** **Presentation By:** **Mr. Tomasz Slusarz**, Founder & Streamliner Cleantech Business Club		
1800 - 2030 Hrs **BIO 1** **IBA Networking Event** **Crystal Banquet Hall**			
	30th September , DAY 3		
	Sessions powered by IBA **1100 - 1215 Hrs** **SATAT** The Workshop on the Development of a Roadmap for India's Commercial Biogas Plants on a Large Scale Workshop on assessment of enablers for on-ground CBG project implementation under SATAT scheme for participants including LOI holders, investors, and entrepreneurs, with cooperation of the Gas Authority of India Limited (GAIL) and Punjab Energy Development Agency (PEDA). **Moderator: Mr. Gurpreet Chugh**, Managing Director, ICF Panelist: **Mr. Praveer Kumar Agrawal**, Chief		

General Manager, GAIL (India Limited) **Er. Kulbir Singh Sandhu**, Senior Manager (E&M), Punjab Energy Development Agency (PEDA) **Mr. K. R. Raghunath**, Founder & C.E.O - KIS Group. **Mr. Aashish Maheshwari**, Associate Business Director– High performance polymer, Evonik India Pvt. Ltd. **Colonel Rohit Dev**, Thought Leader, Bio-Energy, India should suffice		
Sessions powered by IBA **1215-1330 Hrs** **Policies & Finance:** A springboard for the success of India's biogas industry Existing policies and their effects must be analysed to offer the required support for existing and future commercial biogas projects. In addition to providing the C&I sector with CBG through policy push, CBG will also be provided to the sector. Also, The current financial business model, which is based on available fiscal incentives such as Central Financial Assistance, tax benefits, soft loans, and so on, must be further explored, as additional possibilities for lowering plant costs and bridging the financial gap are required for the bio-energy sector to thrive. **Topics:** ●Biogas role and significance in India's energy mix: the Government of India's roadmap ●Inclusive policy vision for the industry ●Case study on success of biogas in Europe as a result of robust policy framework ●Required policy mechanisms for accelerated biogas-to-grid dissemination ●Additional application scenarios of the industry ●Discussion on present and alternate financing instruments for bio-energy		

projects ●Inclusive financing roadmap for the industry ●Concessional ways to mainstream innovation in the industry ●The importance of credit rating in the risk assessment and lending process. ●Headwinds to seamless capital infusion in biogas/bio-CNG industry- an investor's perspective ●The key to raking in foreign funds and grants to the Indian Biogas/Bio-CNG industry Moderator: Prof. Amit Garg, Professor (Higher Administrative Grade) in the Public Systems Group, Indian Institute of Management Ahmedabad (IIMA), India **Panelists:** **Shri Dinesh Dayanand Jagdale,** Joint Secretary, Ministry of New and Renewable Energy(MNRE) **Mr. Kuljit Singh Popli,** Director, Clime Finance Pvt Ltd **Mr. Harshit Agrawal**, Senior Gas Specialist, World Bank **Mr. Nikhil Khot**, National Technical Expert at UNIDO, United Nations Industrial Development Organisation (UNIDO) **Shri Bijay Kumar**, General Manager (AE), IOCL **Mr. Manish Dabkara**, CMD & CEO, EKI Energy Services Ltd **Prog. Amit Garg**, Professor (Higher Administrative Grade) in the Public Systems Group, Indian Institute of Management Ahmedabad (IIMA), India		
Lunch 1300 -1400 Hrs		

Sessions powered by IBA **1430 - 1545 Hrs** **Bio-energy - An essential for India's rising energy sector!** India has the potential to become one of the world's greatest green economies owing to its enormous resources of biomass, industrial biomass, forest biomass, urban waste biomass, and aquatic biomass. Biomass has the capacity to provide both reliable and renewable energy. Additionally, the launch of a national hydrogen mission shall significantly benefit the industry. The bioenergy industry in India can aid the country in reaching its objectives, such as decarbonization and decreased petroleum imports. In addition to several bioenergy verticals, the future of India's energy portfolio will be discussed during this session. Topic: ● Biomass – A boon for the environment as a source of nature-based solutions ●Biofuel potential and existing market conditions ●Biogas - An all-encompassing solution for environmental and soil protection. ●Green hydrogen's significance in transforming India into a hub for green energy **Moderator: Dr. Atma Ram Shukla**, President, Indian Biogas Association Panelists: **Dr. Ramesh Daryapurkar**, Chief Executive Officer, Lars Enviro Private Limited **Mr. Kishan Karunakaran**, CEO, Buyo India Private Limited **Mr SR Kumar**, Founder Director, Aruna Green Ventures Pvt. Ltd. **Mr Dev Anand**, Managing Director, Kankyo-Bert Pvt. Ltd.		

Mr. Karthick Prabakar, Head of Operation, Inclusive Energy Ltd		
1600 - 1715 Hrs **Technical Session Biogas Technology: A Greener Method for Waste Management** Technical Session Biogas Technology: A Greener Method for Waste Management Available technologies must be appraised for their applicability in the Indian context, as well as towards the necessity of bridging the technical gap with future advancements. This workshop focuses on several biogas value chain technologies. Topics: ● Role of technology in feedstock supply chain ● Feedstock pre-processing ● Contemporary anaerobic digestion technologies around the world ● Biogas utilization pathways ● Digestate upgradation and its effective utilization ● National and International Perspectives on Infrastructure Development (Gas Grid and Green Corridor) **Moderator: Mr. Srinivas Kasulla**, Director, Arka Brenstech Pvt. Ltd. Panelists: **Mr. Michale krafzig**, Division Manager Biogas, Binder Engineering GmbH **Mr. Prantik Sinha**, Co-Founder, Agastya Invention Pvt. Ltd. **Mr. Nek Singh Thakur**, Engineering Head, Biogas Engineering India Pvt. Ltd. **Mr. Vikas Kumar**, Business Field Manager-Environment and energy, Netzsch Pumps & Systems India **Mr. Florian Wueck**, Director of sales, ARMATEC-FTS GMBH	**1610 - 1630 Hrs** **Networking Break**	
1730 - 1800 Hrs **IBA General Assembly** ● IBA's progress in FY-21-22. ● Onward roadmap of the Association	**Technology & Transition Training Workshop** **By: Steinbeis** **(Fee details on the website)**

Polycab Solar On-Grid Inverters

Widest range of rooftop solar solutions under one roof!

Polycab offers reliable and quality solar products, including the widest range of durable and user-friendly On-Grid Inverters from 1kW to 250kW. Tested and certified as per IEC standards by TUV, each inverter is backed by one of the best after-sales services in the industry. No wonder, Polycab is the preferred choice of consultants and system integrators.

Leading Features:

Max. Efficiency | Optimised MPPT design | Supports 30%-50% DC overload | Intelligent string monitoring & smart I-V curve diagnosis (Available in 5G series) | Wide voltage range and lowest start-up voltage Type II SPD for both DC and AC side | In-built Anti PID and AFCI features (greater than 80 kW)

SPEAKER PROFILES

1230-1345

New Business Destination - Latin America

The Brazilian story of Biofuels; Challenges and Opportunities for India.

H.E. Mr. André Aranha Corrêa do Lago
Ambassador, Embassy of Brazil

H.E. Mr. Juan Angulo
Ambassador, Embassy of Chile

Topic: Costa Rica's strengths on renewable energies and progress on green hydrogen and electric mobility

H.E. Mr. Claudio Ansorena Montero
Ambassador, Embassy of Costa Rica

H.E. Mr. Alberto A. Guani
Ambassador, Embassy of Uruguay

Speakers of the session: Day 2, Hal Raman (8 spkrs)

Session name: Long Duration Battery Storage – Opportunities for U.S. and India Collaboration

Dr. Imre Gyuk,

Energy Storage Research, U.S. Department of Energy

Mr. Matt Harper,

Chief Commercial Officer, Invinity Energy Systems

Dr. Rahul Walawalkar,

President, IESA & MD, CES (India)

Dr. Killian McKenna,

Research Engineer IV, Grid Planning and Analysis Center

Mr. Ghanshyam Prasad,

Chairperson, Central Electricity Authority, Ministry of Power

Mr. Mahmoud (MJ) Jardaneh,

Energy Attaché, U.S. Embassy New Delhi

Ms. Durra Elmaki,

Commercial Officer,U.S. Commercial Service

Mr. Yashwant Mahadevan,

Vice President (APAC and Middle East Region), EOS Energy Enterprises

Session: Day 2, Aryabhata

Business Opportunities for AgriPV in India (9 spkrs)

Ms. Luz Alicia Aguilar,

Senior Project Manager International Affairs, German Solar Association (BSW-SOLAR)

Dr. Nicole Glanemann,

Deputy Head of Division, Federal Ministry for Economic Affairs and Climate Action (BMWK), Germany

Mr. David Wedepohl,

Managing Director International Affairs, German Solar Association (BSW-Solar)

Dr. Martin Lux,

Head of Energy Team, KfW Development Bank Delhi Office

Mr. Subrahmanyam Pulipaka,

CEO, National Solar Energy Federation of India (NSEFI)

Mr. Vivek Saraf,

CEO & Co-Founder, SunSeed APV

Ms. Suruchi Kotoky,

BTG Legal

Mr. Sascha Krause-Tünker, CFO, NEXT2Sun

Mr. Siddharth Goel,

Senior Policy Advisor, International Institute for Sustainable Development (IISD).

Day 1, Hall Aryabhata:

Session: Decarbonization of Rail Transport in India (8 spkrs)

Ms. Durra Elmaki,

Minister Counselor for Commercial Affairs (Acting), Embassy of the United States of America

Mr. Pramod Kumar Singh,

Advanced Energy Lead, USAID SAREP

Mr. Manish Gupta,

Executive Director, Electrical Energy and Management (EEM), Railway Board, Indian Railways

Mr. Arvind Kumar Singh,

Chief Electrical Engineer, Uttar Pradesh Metro Rail Corporation

Mr. Malay Saha,

General Manager, Delhi Metro Rail Corporation

Mr. Rajeev Joisar,

Managing Director, Alstom Group

Mr. Anurag Mishra,

Senior Clean Energy Specialist, USAID/India

Mr. Mark Kammerer,

Sales and Business Development Director, Off-road

Day 1, hall Aryabhata,

Session: Indian Cities Progressing Towards Net Zero (7 spkrs)

Ms. Mary Tyler Holmes,

Acting Director, Indo-Pacific Office, USAID/India)

Mr. Anurag Mishra,

Senior Clean Energy Specialist, USAID/India

Ms. Shruti Narayan,

Regional Director South and West Asia, C40 cities

Mr. Deepak Tewari,

Research Fellow, WRI India

Mr. Shounak Ray,

Business Development Lead South Asia, Green Building Program, IFC

Mr. Amit Sharma,

Director and Head – Sustainability Business, India, Schneider Electric

Mr. Sumedh Agarwal,

Deputy Chief of Party, USAID SAREPT

Day 1, Crystal Banquet hall: Session: BNEF Talks (4 spkrs

Mr. Atin Jain,

Senior Associate, BloombergNEF

Mr. Rohit Gadre,

Senior Associate, BloombergNEF

Ms. Komal Kareer,

Associate , BloombergNEF

Mr. Shantanu Jaiswal,

Head of India research , BloombergNEF

Day 2, Aryabhata, Session: Digitalisation and Renewables!

Ms. Sangeetha Suresh,

Associate Director – Market Intelligence, BRIDGE TO INDIA

Mr.Nalin Kumar Sharma, President - Asia, Middle East & Pacific at Ecoppia

Mr. Vinod Tiwari,

Global Head- BD and Partnerships - Power Ledger

Mr. Rajesh Mallaya,

COO, Prescinto

Mr. Vikas Mathur,

Country Manager-India, 3E

Mr.Sandeep Pathak,

Country Head – India & Asia Region, QOS Energy

Day 3, Raman,

Session: Technical standards for solar BOS components v(5 spkrs)

Mr. Mridul Chadha,

Associate Director – Consulting, BRIDGE TO INDIA

Mr. Bharath Reddy Yellasiri, Additional General Manager, SECI

Mr. Mathusudhana S K, Senior Vice President - Head Operations, Blupine Energy

Mr. Satish Pandey,

Head Module Testing and Analytics, Mahindra Teqo

Mr. Mehul Sharma,

Director (India) TBEA

Day 1, RAMAN: Session: Innovations and Technology the way forward to RE..!

Mr. Harsh Goenka,

Sales Director, EMEA and India, Solargis S.R.O

Mr. Anand Chandrashekaran,

Senior Energy Market Analyst, Energy Exemplar

Mr. Vineet Kumar,

Country Manager, ANTAI TECHNOLOGY CO,. LTD

Mr. Pavan Mathur,

Head Technical, Longi Solar

Mr. Sergi Bosque,

Regional Manager India, Middle-East & Africa (IMEA) region, GreenPowerMonitor, a DNV company

Mr. Pradeep Srikanthan.

Business Head, Redington Limited

Day 1, Crystal Banquet Hall: RE Master Talks!

Mr. Tulsi Tanti,

Founder, Chairman and Managing Director of Suzlon Group

Dr. Milind Kulkarni,

President-PV Manufacturing, Reliance New Energy Solar

Senator Dr. PKC Bose,

Vice Chairman & Managing Director, ENERCON INDIA

Day 3, ARYABHATA, INDIAN BIOGAS ASSOCIATION FULL DAY SESSIONS (25 Speakers)

Mr. Gurpreet Chugh,

Managing Director, ICF

Mr. Praveer Kumar Agrawal,

Chief General Manager, GAIL (India Limited)

Er. Kulbir Singh Sandhu,

Senior Manager (E&M), Punjab Energy Development Agency (PEDA)

Mr. K. R. Raghunath,

Founder & C.E.O - KIS Group.

Mr. Aashish Maheshwari, Associate Business Director– High performance polymer, Evonik India Pvt. Ltd.

Managing Director, Kankyo-Bert Pvt. Ltd.

Day 3, ARYABHATA, INDIAN BIOGAS ASSOCIATION FULL DAY SESSIONS (25 Speakers)

Mr. Karthick Prabakar,

Head of Operation, Inclusive Energy Ltd

Mr. Srinivas Kasulla,

Director, Arka Brenstech Pvt. Ltd.

Mr. Michale krafzig,

Division Manager Biogas, Binder Engineering GmbH

Mr. Prantik Sinha,

Co-Founder, Agastya Invention Pvt. Ltd.

Mr. Nek Singh Thakur,

Engineering Head, Biogas Engineering India Pvt. Ltd.

Mr. Vikas Kumar,

Business Field Manager-Environment and energy, Netzsch Pumps & Systems India

Mr. Florian Wueck,

Director of sales, ARMATEC-FTS GMBH

CRYSTAL BANQUET HALL, DAY2. (8 speakers)

Session Name: Unlocking clean energy demand to achieve net-zero

Mr. Sunil Kothari,

Sales Lead APAC, Energy Exemplar

Mr.Hubert Sugeng,

Director Engineering, BlueWave-AI

Mr. Naveen Nagpal,

Asst. Vice President, BRPL

Mr.Randeep Bora,

Vice President, SunSource Energy

Mr.Karan Chadda,

Head, Business Development, FourthPartner Energy

Ms. Disha Agarwal, P

rogramme Lead, CEEW (MODERATOR)

Mr. Ashish Tiwari,

CEO, Kosher Climate India Pvt. Ltd.

Mr. Sharad Kumar,

Chief of Power Systems & Energy, TATA Steel

DAY 2, CRYSTAL BANQUET HALL (8 ppt's)

SESSION: 1205 - 1320 Hrs

Mr. Vikas Bansal,

COO- International, GameChange Solar

Mr. Sai Charan,

Technical Director, Jinko Solar

Mr. Sunil Thamaran,

VP & MD Enphase India

Mr. Nimish Jain,

CEO Airtouch Solar India

Mr. Dheeraj Malani,

Chief Growth Officer, Oriano Clean Energy Pvt. Ltd

Mr. Deepak Zade,

Asst. Vice President – Industry Service: Green Energy and Sustainability, TÜV SÜD South Asia Pvt. Ltd.

Mr. Hardik Vyas,

GM Business Development, Enerparc

Ms. Kathrin Sumser,

Underwriter, Green Tech Solutions, Munich Re

Mr. Vishal Purohit,

roperty Underwriter, Green Tech Solutions, Munich ReSenior Gas Specialist, World Bank

Mr. Alok Kumar,

Market Area Manager-Renewables, DNV

Mr. Devendra Sikka,

Sr. Consultant

Mr.Vivek Kumar,

Application Development Manager

OTT HydroMet / Kipp & Zonen

DAY-1, ARYABHATA (6 speakers)

Session powered by Cleantech Solar: 'Indian Manufacturing Turns Green - Nation's Top Power Consumers Share Their Journey'

Mr. Manu Srivastava:

Principal Secretary, Government of Madhya Pradesh

Dinesh Yadav:

Director and CEO – Arvind Envisol Ltd.

Mr. Ashish Maheshwari: S

outheast Asia Head – Energy (Strategic Sourcing &Procurement) – Cargill

Dr. Anuvrat Joshi:

Head Business Development (India) - Cleantech Solar

Jyoti Gulia: Founder

JMK Research & Analytics

DAY 2, ARYABHATA: (6 speakers)

Session Name: Energy Storage for C&I Sector in India 1410 - 1510 Hrs

Dr. Rahul Walawalkar,

President, IESA & MD, CES (India)

Mr. Sreyamsa Bairiganjan,

Renewable Energy Expert, World Bank

Mr. Ayush Misra,

Co-Founder, CEO, Ampere hour Energy

Dr. Rashi Gupta,

Managing Director, Vision Mechatronics

Mr. Yaron Etzion,

Director (BD), Growing Greener Innovations

Mr. Sudhir Pathak

(Head- Central Design & Engg (CDE) +QA), Hero Future Energies

DAY 2, BHABA, Session: Circular Economy stimulating Material Autonomy - a step towards 'Atmanirbhar Bharat (8 spkrs)

Mr. Jaideep Malviya,

Managing Director - Malaviya Solar Energy Consultancy, Board Director - International Solar Energy Society

Mr. Arvind Poswal,

Research Analyst, CEEW

Mr. Sumit Kumar,

*

DAY 1, RAMAN, Time: 1510 - 1610 Hrs (7 spkrs) New spkrs as on 20th Sept.

Session: Energy storage: Key to realize renewable power's full potential

Ms. Surbhi Singhvi,

Manager, Energy Transformation, World Business Council for Sustainable Development

Ms. Jyoti Gulia,

Founder, JMK Research and Analytics

Mr. Alexander Hogeveen Rutter,

Private Sector Specialist, International Solar Alliance

Mr. Lalit Wasan,

Head of Department (Power Management & BESS), Tata Power Delhi Distribution Limited

Mr. Naveen Nagpal,

GM (Renewable Energy, Energy Storage and E-mobility), BSES Rajdhani Power Limited

Mr. Tony Dorazio,

Vice-President, International Growth, Hydrostor

Ashwin Gambhir,

Fellow, Prayas (Energy Group)

Day1, Time:1630 - 1730 Hrs

Session :Floating Power Plants, opening up new markets for scaling up renewable energy generating capacity

Karel de Winter,

Director Floating PV, Phelan Energy Group; CBC Co-Chair of Floating PV & CleanTech Hub

Dharmendra Kumar,

IHS Markit

Mr. Siddhant Agarwal,

CEO at Quant Solar*

Mr. Deepak Usha Devi,

MD & CEO, Ciel & Terre India

Mr. Ran Alcalay,

Co-Founder and CEO of Xfloat Ltd.

Mr. Partho Ganguly,

Business development Head India, Sungrow FPV Sci. & Tech. Co., Ltd.

Day 2, 29th Sept, CRYSTAL BANQUET HALL Session name: 1100 - 1200 Hrs

New business and financial models to accelerate the solar & cleantech growth in India

Shri K.S.Popli,

Former CMD of Indian Renewable Energy Development Agency (IREDA); CBC Honorary Co-Chair for India

Mr. Karim Megherbi,

Founding Executive Director, Orisun Invest: CBC Co-Chair of Financial & Investor Hub

Mr. Tomasz Slusarz,

Founder & Vision Streamliner at CleanTech Business Club

Mr.AK Jain,

Former MD Rajasthan Elect and Instrumentation Ltd

Dr Anuvrat Joshi,

Head Business Development India, Cleantech Solar

Dr Ashvini Kumar,

Former MD SECI (Solar Power Corporation of India)

Mr. Manish Gupta,

Director and Chairman at Insolation Energy

Mr. 3Manu Bishnoi,

Director at Technique Solaire, India

DAY 1, Bhabha Hall 1400 -1500 Hrs

Session: Women Empowering the Cleantech Decade New business and financial models to accelerate the solar & cleantech growth in India

Dr. Rashi Gupta,

Managing Director, Vision Mechatronics; CBC Chair of Energy Storage Hub & Vice-Chair for India

Tomasz Slusarz,

Founder & Vision Streamliner at CleanTech Business Club

Ms. Mani Khurana,

Senior Energy Specialist and Task Team Leader at World Bank; Head of the World Bank's Battery Storage Program in India; CBC Energy Storage Hub

Dr. Shivani Sharma,

Principal Consultant at Hitachi Energy

Ms.Ritu Lal,

Senior Vice President at Amplus Solar

Ms.Shikha Upadhayay, Marketing Head India, LONGi Solar

Mr. Raj Singh Niranjan,

Founder at Trans India Law Associates (TILA); Legal Advisor at International Solar

Mr. Uday Narang,

Founder and Chairman, Omega Seiki Mobility

Mr.Urvish Dave,

Co-Founder at URON Energy

Ms. Lou Del Bello,

Special Project Editor, The Third Pole

DAY1, RAMAN, 1630 - 1730 Hrs

Session: Floating Power Plants, opening up new markets for scaling up renewable energy generating capacity

Karel de Winter,

Director Floating PV, Phelan Energy Group; CBC Co-Chair of Floating PV & CleanTech Hub

Dharmendra Kumar,

IHS Markit

Mr. Deepak Usha Devi,

ARMATEC INDIA is Subsidiary of ARMATEC-FTS GMBH. ARMATEC established in 1965 . ARMATEC is into manufacturing of agitators, pumps and separators for Bio-gas and water treatment Industry since 1965. We are leading global player in the field of system solutions for biogas and waste water treatment. Research & Development leading to innovative , high technology, well-engineered solutions has been our core strength. Today we are a prominent player in the biogas and waste water treatement industry with very good market share in Europe, South America and in Asian countries with visible presence

Product - Bioreactor, boiler, turbine and turbo-generator manufacturers & consultants ,

ARUNA GREEN VENTURES PVT. LTD.

Hall No. - 15

Greeneria Renewable Technologies Private Limited is a professionally managed Company established in the year 2014 under the name Aruna Green Ventures Private Limited, manufacturer of Biogas Plants, Organic Waste Converters, Garden Shredders and large scale biomethanation contractors. We are the only IIT Certified Company on Biomethanation plants and we have done installations of over 600 pan India. Key Working Domains: • Biomethanation – Biogas Plants, Biomethanation Plants • Composting – Organic Waste Converters. • Shredding – Garden Shredders, Twin Shaft Shredders. •

Conveyor Belts • Crushers – Organic waste crushers for Biogas Plants • Dewatering Machine – Solid-Liquid Separator

Product - Bioreactor, boiler, turbine and turbo-generator manufacturers & consultants ,

ASHAPOWER

Seamless vacuum. In every process step of solar industry. Vacuum technology is crucial for the solar power industry. In the automated production of solar cells, vacuum is not only necessary for solar panel lamination. But also for transporting panels between different steps in the production process. Vacuum pumps and systems from Busch cover almost all vacuum applications in the solar power industry. And our central vacuum systems are the most cost-effective solution for seamless vacuum generation. Required in solar cell production.

Product - Inverters,charge controllers,batteries and module connectors , Bio-diesel / bio-ethanol distributors or refining companies , Bioreactor, boiler, turbine and turbo-generator manufacturers & consultants , Consultants , Electrical and electronics items manufacturers , Energy efficient equipments for power generation, transmission and distribution , Hydraulic and mechanical items manufacturers and suppliers , Manufacturers and suppliers of generators and control equipment manufacturers , Manufacturers of cell and module encapsulation,crystal growth equipments,diffusion furnaces,laminators,mounting systems,concentrators,trackers and collectors , Manufacturers of LED and charge controllers , Silicon feedstock,ingot and wafer manufacturing , Solar cells manufacturers , Wind electric generator (WEG) manufacturers

Clarke Energy (www.clarke-energy.com), a Kohler company, is an international specialist in embedded power generation. Operating in 28 countries, we have been providing comprehensive distributed power solutions in multiple industries. With Clarke Energy's engineering, procurement, construction, and aftersales support capabilities, we're able to offer flexible delivery model starting with single gas engine or biogas upgrader or biogas upgrading plant coupled with biogas fuelled gas engine to make the plant self-sufficient energy wise to supplying power modules. Clarke Energy offers end-to-end service for projects related to biogas-based power generation and biogas upgraders.

Product - Complete plant solution providers , Energy efficient equipments for power generation, transmission and distribution ,

CLEAN ENERGY ACCESS NETWORK

Emmvee Group is one of the leading manufacturers and suppliers of solar photovoltaic modules and solar water heating systems in India. Emmvee is the only company with more than 30 years of expertise in solar systems, known for its quality, reliability and distinctiveness. Headquartered in Bangalore, Emmvee has 1250MW production capacity with 2 manufacturing facilities in Karnataka, active sales offices across India and Germany and dedicated dealer network across Middle East, Africa and US markets. Emmvee currently produces range of modules upto 545Wp and equipped to produce upto 680Wp mono-facial and bifacial modules with cell sizes of upto 220mm.

Product - Photovoltaic (PV) modules, hybrid systems, materials and equipments , Solar water heating/cooling systems and solar pumps Testing, monitoring systems, project consultants, suppliers of building integrated photovoltaic (BIPV) and solar thermal engineering , Turnkey solution providers ,

ENAPTER GMBH

Hall No. - 14
Booth No. - 14.39C

Address - Reinhardtstr. 35
City - Berlin
State - Berlin
Zipcode - 10177
Country - Germany
Tel - 0066638705474
Email - paulina@enapter.com
Website - www.enapter.com

Contact Person - Paulina Thomas

Enapter is an innovative energy technology company that manufactures highly efficient hydrogen generators to replace fossil fuels and thus drive the energy transition globally. The patented and proven Anion Exchange Membrane (AEM) technology enables mass production of low-cost plug-and-play green hydrogen electrolysers at any scale. The modular systems are already used in 49 countries in energy, mobility, industry, heating and telecommunications.

Product - Energy efficient equipments for power generation, transmission and distribution , Equipment suppliers and service providers ,

ENERCAST GMBH

Hall No. - 14
Booth No. - 14.39I

Fax - +49561473966499
Email - marketing@enercast.de
Website - https://www.enercast.de/

Contact Person - Ann-Kathrin Mascarin

enercast is a leading technology provider for weather-based artificial intelligence and the digital transformation of renewable energy. Its self-learning SaaS products deliver accurate power generation forecasts for wind and solar plants, thus enabling the integration of renewable energy into power grids and energy markets worldwide. The enercast platform supports the digitization of the emerging decentralized energy system. Founded 2011 in Kassel, Germany, enercast delivers 100 million forecast data points per day to 20 countries around the globe, covering 180 GW of installed capacity. Since 2015, enercast is present in India as a reliable provider of forecasting, scheduling and QCA services.

Product - Assessment and forecasting service providers , Software solutions and providers of irradiation data ,

ENERGY EXEMPLAR PTY LTD

Hall No. - 7
Booth No. - 7.07

Address - 17 BAGAT STREET, NORTH AD-ELAIDE, SA
City - NORTH ADELAIDE
State - ADELAIDE
Zipcode - 5006
Country - Australia

Website - https://www.enerlite.in/

Contact Person - BS Prasad

Enerlite manufactures solar film encapsulates with state-of-the-art German machinery. Enerlite EVA Film Series is a Homogeneous Layer of EVA, with Absolutely Low Thermal Shrinkage and Anti PID-function which prevents solar cell damage from current leakage in a PV module by improving the electrical insulation. All our products are certified by UL lab as per global standards and are suitable for mono, poly and Bifacial solar photovoltaic applications.Our manufacturing plant is located on a 7-acre land in the industrial city of Igatpuri, Nashik, Maharashtra and the project's overall annual production capacity is 700 MW.

Product - Glass, substrates, coatings, resins, encapsulation materials, films, gasses , Manufacturers of cell and module encapsulation,crystal growth equipments,diffusion furnaces,laminators,mounting systems,concentrators,trackers and collectors ,

Logics PowerAMR is a Tech company offering IoT based solutions for Remote Monitoring and Asset Management of Solar PV systems

to track performance, spot or predict failures and provide proactive maintenance of the solar assets. We have a Centralized Monitoring Platform for performance monitoring, analytics and managing these plants remotely. Our offerings include Solar Plant Management System , weather sensors, Pyranometers of all makes and models, Zero export controller, Solar DG Synchronization. Logics PowerAMR smart data loggers are plug 'n' play, most flexible, robust and scalable IoT devices which provides you full access for Monitoring 'n' Control

Product - Software solutions and providers of irradiation data ,

Established in the year 1997, we, "Sabo Systems (P) Ltd." manufacturer, importer, supplier, distributor & exporter of a wide range of Surge Protection Devices, ESE Lightning Conductor, Microprocessor Electronic Relays and others. The products offered by us are manufactured using high grade raw material under the strict supervision of our quality check experts. These products are in huge demand for their durability and high efficiency. We also offer Earth Pit Cover and Electrical Panels to our clients. These products are offered at the most affordable rates to our clients.

Product - Emission monitoring systems , Manufacturers of cell and module encapsulation,crystal growth equipments,diffusion furnaces,laminators,mounting systems,concentrators,trackers and collectors , LIGHTNING ARRESTER , EARTHING MATERIAL, SOLAR PANEL, SOLER STRUCTURE, INVERTER, BATTERY , SOLAR WATE , Solar water heating/ cooling systems and solar pumps Testing, monitoring systems, project consultants, suppliers of building integrated photovoltaic (BIPV) and solar thermal engineering ,

SAFEARTH CLEAN TECHNOLOGIES PVT LTD

Hall No. - 15
Booth No. - 15.111

Address - 4 L, Shree Gopal Complex, Court Road
City - Ranchi
State - Jharkhand

SafEarth runs an online Software as a Service platform that helps Solar EPCs in growing their revenue and profitability. Our marketplace allows EPCs and developers to win lucrative solar contracts in the shortest possible time. In 2021-22, SafEarth did over 100MWs of Rooftop solar projects on its platform to become India's largest platform for solar adoption by industries. Our tool Solar Flow then helps EPCs in executing projects efficiently and reducing the chances for errors and cost overruns. We have historically reduced project execution time by 20% and errors to an absolute 0 to deliver higher profitability to EPCs.

Product - SafEarth is a Software as a Service Platform for the adoption of renewable energy ,

SANGIR PLASTICS PVT LTD

Hall No. - 15
Booth No. - 15.247

By leveraging world-class engineering capabilities, and with a relentless focus on innovation, SolarEdge creates smart energy solutions that power our lives and drive future progress. Established in 2006, SolarEdge developed the DC-optimized inverter solution that changed the way power is harvested and managed in photovoltaic (PV) systems. The SolarEdge intelligent inverter solution maximizes power generation while lowering the cost of energy produced by the PV system, for improved RoI. Continuing to advance smart energy, SolarEdge addresses a broad range of energy market segments through its diversified product offering including residential, commercial, and large-scale PV, energy storage, and backup solutions.

Solex Energy Limited - one of the first solar panel manufacturing company to get listed on NSE Emerge stock exchange with Stock Code SOLEX. With a rich experience of more than 25 years in the solar industry, the company has been instrumental in determining its vision and future growth strategies. SOLEX has come a long way - from successfully accomplishing one of the very first installations of its solar boilers in L D College of Ahmedabad in 1999 to becoming the company with a turnover crossing the 139-crore mark in 2019-20. Further expanding production capacity to 4 GW by 2024.

Product - Inverters,charge controllers,batteries and module connectors , Annual maintenance contractors , Complete plant solution providers , Consultants , Electrical test and measuring systems , Emission monitoring systems , Energy efficient equipments for power generation, transmission and distribution , Equipment suppliers and service providers , Glass, substrates, coatings, resins, encapsulation materials, films, gasses , Green information & communications technologies (ICT) , Industrial and decorative lighting equipment, luminaries, fixtures and accessories , Manufacturers of cell and module encapsulation,crystal growth equipments,diffusion furnaces,laminators,mounting systems,concentrators,trackers and collectors , Manufacturers of LED and charge controllers , Manufacturers of motors and pumps , Photovoltaic (PV) modules, hybrid systems, materials and equipments , Project developers , Screen-printing and metallization equipments , Silicon feedstock,ingot and wafer manufacturing , Software solutions and providers of irradiation data , Solar cells manufacturers , Solar drying and desalination

systems , Solar farm developers and owners , Solar street and billboard lighting systems , Solar water heating/cooling systems and solar pumps Testing, monitoring systems, project consultants, suppliers of building integrated photovoltaic (BIPV) and solar thermal engineering , Suppliers of raw materials , System integrators, assemblers and distributors , Turnkey solution providers , Utility planners and organizations , Wire saws and consumables ,

We are committed to being the BEST STEEL FASTENERS FASTENER PROVIDER IN THE WORLD. Swastik Industrial Works is a leading Manufacturer of STEEL FASTENERS Fastener. With a history of over Decades exceeding our customer expectations, SIW is now serving thousand of customers in India and around the world. . Every step, which has been taken to lead our Company into the new era of technology with increasing demands of the customers, we are proud to state that we have been a company, which has been growing since its establishment. We carry a full line of STEEL FASTENERS Fastener Product like

Product - Analytical instruments manufacturers and service providers , Automation measuring and control systems , Energy efficient equipments for power generation, transmission and distribution , Manufacturers of cell and module encapsulation,crystal growth equipments,diffusion furnaces,laminators,mounting systems,concentrators,trackers and collectors ,

Unlike other solar panels which need to be separately mounted upon a racking system and placed on the truss, Atum is both - the roof and the solar panel. It provides a sleek and simpler integrated solar roo?ng system that increases energy generation by 20%. The cement base of Atum helps in reducing heat transfer and reduces the energy usage by 6% as compared to the traditional sloped concrete roof or an industrial Galvalume roo?ng. Atum provides more surface area for the panels which results in 20% more output than conventional solar panels.

Product - Manufacturers of cell and module encapsulation,crystal growth equipments,diffusion furnaces,laminators,mounting systems,concentrators,trackers and collectors , Solar cells manufacturers , Solar farm developers and owners ,

We are very glad to introduce ourselves as one of the leading manufacturing Companies of Chemical Earthing Electrodes, Conventional Lightning Arrester & Supplier of ESE Lightning

Arrester in Maharashtra. We the Yash Earthing Solution Pvt Ltd are the fastest-growing Earthing Solution provider company reaching out to distinguish customers. As we know customer satisfaction and business success go hand in hand, we are focused on giving quality & Cost-effective products to our renowned customers. Our Product are:- 1. Maintenance free Chemical Pipe Earthing Electrode (GI, Copper, Copper Bonded) 2. Early Streamer Lightning Arrester (ESE) 3. Conventional Lightning Arrester (Copper & Copper

Product - Electrical and electronics items manufacturers , EARTHING & LIGHTENNING ARRESTOR MANUFACTURER , Turnkey solution providers ,

Jinchen Corp., established in 1996, is one of the world's leading equipment manufacturer in the field of high-efficiency solar cell and high-efficiency solar module manufacturing , providing advanced and reliable automation equipment and solutions for more than 210+ customers around the globe. By the end of 2021, the equipment provided by Jinchen could cover more than 260GW production , nearly 40% of the global production capacity. Jinchen has established marketing & technical service center in India, with a powerful team including sales, engineering, project management and after-sales, Jinchen can ensure timely and high-quality project delivery and localization services for customers.

Product - Manufacturers of cell and module encapsulation,crystal growth equipments,diffusion furnaces,laminators,mounting systems,concentrators,trackers and collectors , Photovoltaic (PV) modules, hybrid systems, materials and equipments , Solar cells manufacturers ,

ZHEJIANG HUADING NEW ENERGY TECHNOLOGY CO., LTD.

Hall No. - 5
Booth No. - 5.12

Address - 9F, building 2, Jiamei Building
City - Hangzhou
State - Zhejiang
Zipcode - 310022
Country - China

Isher Structures specializes in the development, manufacturing and marketing of photovoltaic racking solutions. Isher Structures has groomed itself and emerge out as a leading manufacturer of Solar Module Mounting Structures. At Isher, we commit to provide the best quality material without any defect and on-time delivery. In our journey of last five years, we had continuously worked to improve the Plant & Machineries for tackling any type of challenge coming during the production. We have the best team for serving in the field of Fabrication of Steel Structures and EPC Services. We are the experts in providing top-notch and cutting-edge innovative product, dedicated after-sales services & comprehensive solutions for our valued clientele. Our mission is to promote renewable energy

solutions making solar installation simple.

ADDWATT POWER SOLUTIONS PVT LTD.

Email ID:- nishant@addwatt.in; pramod.kumar@addwatt.in

Person- Nishant Mathur

Contact Number: 9414344830
Addwatt Power Solutions Pvt Ltd. is a leading and diversified company operating in the field of Solar Power Sector. Addwatt is a progressive EPC Company committed to bring you the entire range of services from designing till construction of Solar Power plants under one roof. Addwatt specializes in Turnkey EPC, BOS EPC and DC/AC side packages for MW scale solar power plants. Since its inception, Addwatt is now present in 3 Countries globally & 21 states in India with total portfolio of over 1GW+ of large and small projects across India. Addwatt is focused on tapping opportunities in "Open Access" power market & has pipeline of about 300mw projects to be developed in next 2 years in states like Karnataka, Maharashtra, Tamil Nadu & Chhattisgarh. Addwatt is delighted to mention here that apart from renowned private customers, like "Aditya Birla, Cleantech, Azure Power, Renew Power Etc." and many more, Addwatt also has PSUs like "SECI, BHEL, NTPC, ONGC, AAI AIRPORT, IOCL, HPCL, COAL INDIA, REMCL, METRO RAILWAYS, NDRI, IPGCL, NPCIL", in its clientele.

Since 2012

Technology...

That Connects Human with Nature

Ksolare an Indian incorporated company started by Mr. Sunil Sinnarkar in 2012. having 40 yrs. wide experience in Power Electronics. Had worked in world renowned international companies from USA, Germany, Spain & Portugal. Today, Ksolare has emerged as one of the respectable technical Indian company who had made their presence in PAN India with 24x7 after sales service.

Ksolare serving Indian industry since 2012 with over 2.5Lacs satisfied customers from 1 to 250Kw Grid Tie Inverters. Ksolare's having state of the art manufacturing facilities in Technology park, Pune, India.
Invested over 11Crs in plants machinery in electricals, electronics, fabrication, research & development in the products like grid-tie inverter, hybrid inverter & EV charging stations.
Ksolare is world's 1st Indian company to give a 7G Infinity Inverter with 25 years warranty.

Ksolare is the first company to develop all-in-one 5G Ultra & 5G Pro E Plus to give value for money with innovation & Patented design. Now Ksolare had started new vertical in EV charging stations with innovative High smart intelligent 1000V DC charger to all types of electric cars and buses.
Our vision is to deliver 100% make in India products, to become 100% Aatmanirbhar & to provide 100% employments to Indians.

CHARX

E-Mobility empowered by Phoenix Contact

Everything for your e-mobility charging infrastructure

Innovative charging technology from a single source

Equip your charging points with CHARX from Phoenix Contact. Our complete, fully coordinated portfolio – from the CCS charging cable to the charging management solution – ensures a powerful charging infrastructure.

Our experts will be happy to support you in designing and planning your charging solution – whether it is an AC home charger or HPC fast charging station.

No.1 Global PV Inverter Supplier

Take control of your PV investment with easier O&M and best-in-class safety

Harvest more energy for improved ROI with SolarEdge's residential and commercial inverter solutions up to 120kW.

Our innovative inverters are designed with a unique built-in safety solution that meets the highest safety regulations around the world.

More Energy
Each module produces at its maximum at all times

Advanced Safety
Built-in features for maximum safety of people and property

Easier O&M
Remote and easier module-level asset management

Longer Warranties
25-year optimiser & 12-year inverter warranties (extendable to 20 years)

Contact Person - Kunal Saxena

Amp Energy India is India's First Truly Balanced Renewable Energy Company. With a current portfolio of about 2GWp+ spread across 15 states in the country, Amp Energy India is one of India's only triple play renewable developers, having a balanced portfolio of C&I and utility customers.

The company currently offers green power to 50+ marquee customers across 10+ Sectors, leading to a well-balanced portfolio. Some of these customers are amongst the country's leading corporates, such as Skoda Auto Volkswagen India, Cipla, Bharti Airtel, Britannia, AB InBev, Tata Hitachi, Orient Cement, L&T Metro Rail, Hewlett Packard Enterprise etc. These customers also include some of the best utility off-takers such as Solar Energy Corporation of India, NTPC, and RUMSL.

Products - Amp Energy India is one of the few developers that has the capability to provide diversified solutions to its customers in niche segments (Solar, Hybrid, Floating Solar) on a large scale. These solutions help utility customers to meet their renewable energy targets, reduce their power purchase cost and also fulfil their renewable purchase obligation

BluWave-ai formed in 2017 around the idea of bringing innovations in artificial Intelligence, edge computing, and cloud-based super-computing to the world of distributed renewable energy.

BluWave-ai is focused on driving the proliferation of renewable energy and electric transportation worldwide.

Products-Their solutions apply artificial intelligence (AI) cloud software to optimize the cost, carbon footprint and reliability of different energy sources, both renewable and non- renewable, in real-time. This lets the company's customers – utilities, fleet operators and electricity system operators to improve their energy-related decision making in planning and in live systems to decrease costs and carbon footprint. BluWave-ai has a mission to decarbonize the planet by using hardware assets more efficiently with AI software and aims to be a premier renewable energy and transport electrification AI company based in Canada

GROWING GREENER INNOVATIONS

HYDROSTOR

Hall No - 14
Booth No - 14.05

Address - 365 Bay Street, Suite 300
City - Toronto
State -
Zipcode - ON M5H 2V1
Country - Canada
Tel - +1 (416) 548-7880
Email - Tony.dorazio@hydrostor.ca
Website - www.Hydrostor.ca

Contact Person - Anthony Dorazio

Hydrostor, a private company founded in 2010 and based in Toronto, Canada, is the world's leading developer of utility-scale energy storage facilities. Hydrostor's proprietary Advanced Compressed Air Energy Storage (A-CAES) product improves on the mature Compressed Air Energy Storage (CAES) technology by eliminating emissions, increasing efficiency, and providing location flexibility. Hydrostor is uniquely situated to provide long duration, non-emitting, cost-effective energy storage enabling direct replacement of fossil generation, deferral of costly transmission investments and greater integration of renewable generation as the grid decarbonizes. A-CAES achieves this by offering equivalent large scale energy storage with the low cost, long duration, and long life of pumped hydro but with a key advantage of being able to flexibly site where needed and without the environmental impacts.

Products - Hydrostor believes substantial growth potential lies in the development, construction, operation, and ownership of A-CAES facilities due to its high-value grid applications and the growing need for long duration energy storage to enable the low carbon energy transition. A-CAES is an innovative integration of well-proven equipment and construction approaches that is more commercially mature than other emerging long-duration energy storage technologies. Over the next decade, the Global Market potential for long-duration grid scale energy storage that can be flexibly sited is expected to grow as much as 140+ gigawatts (GW). This market growth is being driven by significant, non- reversible grid trends, including aging power infrastructure and the variability introduced from growing penetrations of renewable energy.

HYGEE ENERGY

Hall No - 14
Booth No - 14.05

Address – 1240 Bay St, Suite 807
City - Toronto
State - Ontario
Zipcode – MR52A7

Email - prateek@hygge.energy / atul@hygge.energy
Website - www.hygge.energy.com

Contact Person – Prateek Saxena

Hygge Energy is a cleantech company headquartered in Toronto that has found a way to unlock the monetary potential of renewable energy. They seek to redefine the EV charging business into one that is profitable, renewable-dominant, and clearly linked to offsetting the local carbon footprint.

Products- Facilitated by a customer-premises IoT device that works on embedded blockchain and machine learning-based AI, Hygge's solution enables tracking, measurement, optimization, allocation and accounting of renewable energy for EV charging as well as general consumption. It also allows the sale of surplus energy to neighbors or nearby communities. The solution is supported by an immersive, end-

to-end mobile app that facilitates the entire EV charging experience; it not only tracks payments as well as carbon credits earned by users each time they use Hygge's network, but also provides the ability for EV drivers to book and reserve EV charging time slots in advance, avoiding waiting time, disappointment because of not getting a charging spot, and chaos at charging stations

PLUGZIO

Hall No - 14
Booth No - 14.05

Some of the industries the company provides solutions for include automotive, metal building and construction, transportation, storage, energy, and consumer products. Samco currently has clients in 35 countries around the globe and is a global exporter that believes in embracing innovationand in engineering solutions for its customers

DIGITAL SOLAR CORP

Hall No - 14
Booth No - 14.05

Address – Calgary
Country - Canada
Tel – +1-587-351-6020
Email - ron.t@dshh.info
Website - www.DigitalSolarHeat.com

Contact Person - J. Metituk

DSH was founded in 2003 as a solar heating engineering company. It evolved to primarily design dozens of residences/buildings. The DSH system and the related low cost storage system was patented in 2010 and 2017. In 2022 the company expanded their heating and storage system to function in the cold that includes Canadian winters. A university modeled/assessed the new Gen-2 systems performance, for a 5,000 2Ft (465M2) warehouse with meteorology based on weather in Calgary, Alberta, Canada. The results were an astounding 85% heating and carbon emissions offset over a complete year. 100% heating offset is possible.

SPARQSYS

Hall No - 14
Booth No - 14.05

Address - Innovation Park, 945 Princess St. Box 212
City - Kingston
State - Ontario
Zipcode – K7LOe9
Country - Canada
Email - sgupta@sparqsys.com
Website - www.sparqsys.com

Contact Person - Salil Gupta

SPARQ designs and manufactures next generation microinverters for residential, commercial, and agriculture solar PV applications. SPARQ has developed a proprietary PV inverter solution called the Quad. The revolutionary Quad microinverters are game changers for the solar power industry. Unlike traditional microinverters that have one PV module per microinverter, SPARQ's Quad microinverters have four individual DC input channels to enable independent peak power tracking for up to four PV modules. Based on a Per-Watt rating, SPARQ's Quad microinverters have the lowest microinverter cost per watt, the highest power density, and the lowest weight in the industry.

Products - SPARQ's microinverters have been designed for high reliability, using patented technologies that eliminate the use of short-life electrolytic capacitors. This feature gives SPARQ's microinverters high reliability and a design life exceeding 25 years - matching the design life of PV modules.

Moreover, every microinverter can be used in grid-tied, off-grid, and solar water pump applications without requiring any hardware change.

Contact Person : Mr. Daljit Singh Kohli

With the switch to a circular economy and major investments in the energy transition, Port of Antwerp-Bruges is aiming for climate neutrality by 2050. Wind turbines and solar panels generate power on a large scale. Alternative energy sources such as Green hydrogen are being introduced for converting them into sustainable raw materials and fuels for the chemical sector in the port. PoA-B are committed to sustainable industry, shipping and logistics, with a focus on the environment. Landing energy from offshore wind farms and state-of-the-art LNG infrastructure makes Zeebrugge the ideal location for a green hydrogen plant.

UMICORE

Stall No : 15.19

Address : 429, G wing, Kanakia Zillion, LBS Marg, CST Road Junction BKC Annexe, Kurla (West), Mumbai
Country : India
Tel : +91 22 66275656
Email : india@umicore.com

Contact Person : Ms. Sonal Kadam

Umicore is a global materials technology and recycling group. It focuses on application areas where its expertise in materials science, chemistry and metallurgy makes a real difference. Its activities are organised in three business groups: Catalysis, Energy & Surface Technologies and Recycling. Each business group is divided into market-focused business units offering materials and solutions that are at the cutting edge of new technological developments and essential to everyday life. Their offerings include PEM catalyst, Rechargeable battery materials, and Battery Recycling solutions.

VINI GREEN ENERGY

Stall No : 15.19

Address: Zeedijk-Heist 142 bus 41, Knokke-Heist, West-Vlaanderen, 8301, Belgium.
Tel : +32 50 53 38 80
Email : geert@vini-green.com

Contact Person : Geert Devisch

ViNi Green Energy BVBA (2016) is a subsidiary of ViNi SA (1986) GH LUXEMBURG HOLDING. ViNi's portfolio includes high-quality intelligent infrared panels and products used to generate solar power patented "all in one solutions" combination IPS SMART AI GRID INDEPENDED POWER SYSTEMS unlimited production of green Energy and Green Hydrogen from 50 KW to multimegawatt solutions via wind energy, solar-hybrid boiler etc. ViNi is currently involved in various projects across Europe & USA, Asia, Africa, the Middle East and Latin America.

VITO

Stall No : 15.19

Address: Darbari Seth Block, IHC Complex, Lodhi Road, New Delhi – 110003, India
Tel : +91-9821195414
Email : hafeez.rehman@vito.be

Contact Person : Dr. Hafeez Rehman

VITO/EnergyVille involves in applied research for the development of products and services in the field of positive energy buildings and districts. They cooperate with international research and innovation partners and co-develop products and services with industries and public entities.

VYNCKE

Stall No : 15.19

Address: PB No. 29, Mumbai-Pune Road, Kasarwadi, Pune
Tel : +91 20 27145595/39858555
Email : pbhangale@forbesvyncke.com

Contact Person : Mr. Pankaj Bhangale

VYNCKE designs & builds industrial energy plants to create clean energy from biomass or sorted commercial, industrial waste. Their solution range includes steam boilers, hot water heaters, thermal oil heaters, hot gas generators, CHP plants and multimedia energy plants in the range of 1 to 100 MWth or 1 to 20 MWe. In India, they have more than 150 installations at various locations. The industries to include, pharma F&B and utilities.

ZINGAMETALL

Stall No : 15.19

Address: Corporate Office - D-213, Kanakia Zillion, LBS Road Kurla West, Mumbai 400070
Country : India
Tel : + +91-22-26529976
Fax : +91-22-20860795
Email : abhay.bhatia@johngalt.in

Contact Person : Mr. Abhay Tiwari

40 years existence & experience in corrosion protection of steel, is specialized in the development, manufacturing & distribution of cost-effective & durable anti-corrosion solutions, based on a unique film galvanizing technology called ZINGA. It can be easily applied using a brush, roller or spray equipment on a clean steel surface, in the workshop or on-site. Their solutions comply to international standards & are used to refurbish previously hot-dipped or new steel structures, for variety of projects Eg: construction, mining, water, O&G, tank parks, power stations, wind turbines, solar tower. Zingametall has a worldwide distribution network & serves about 120 countries

ARMACELL

Stall No : 15.19

Address : Rue des Trois Entités ,Z.I. Les Plénesses, 9, 4890 Thimister-Clermont
Country : Belgium
Tel : +91 9960593215
Email : m.kuberan@armacell.com
Website: https://www.armacell.com/

Contact Person : Mr. Kuberan Meppalli

As the inventors of flexible foam for equipment insulation and a leading provider of engineered foams, Armacell develops innovative and safe thermal, acoustic and mechanical solutions that create sustainable value for its customers.

CE+T POWER SOLUTIONS

Stall No : 15:19

Address : Rue du Charbonnage, 124020 Wandre
Country: Belgium
Tel : + 32-(0)43456700

Your Trusted and Reliable Partner

We safeguard your way to innovation and success.

With over 35 years of experience, TÜV Rheinland offers a global presence, industry expertise, and a wide range of comprehensive services to address the challenges of the solar market. Our services include testing and certification of PV modules and components, supply chain management, buyers' services, independent engineering for PV Power Plants and supporting the entire plant value chain. We maintain a global network of laboratories in all major solar hubs.

Solar and Components Testing Services

- Solar PV Module Testing & Certification as per BIS & IEC
- PV Power Plant Supply Chain Services
- Electrical Components Testing & Certification
- Electrical Cables & Connector Testing
- UPS & Inverter Testing
- Solar Pump Testing as per MNRE
- Home & Street Light Testing & certification
- Performance Optimization of PV Power Plant

Manufacturer: Steel Tubes & Pipes, Steel poles, Polymer pipes & Led lights

Fabrication: Steel Structures & Heavy Steel Fabrication

VISHAL PIPES LTD.

Incorporated in 1988, Vishal Pipes Ltd. is leading manufacturer of Steel Pipes & Tubes, Steel Poles, Steel Structure (medium to heavy fabrication), **Module Mounting Structure** and Polyolefin Pipes (PVC, HDPE & MDPE). Within India, we have a strong presence and have expanded globally too.

Headquartered in New Delhi, with an integrated manufacturing units spread over 150000 square meters at Sikandrabad in Greater Noida (Part-II) in state of Uttar Pradesh. The units are certified for ISO 9001, ISO 14001, ISO 45001 & CE and equipped with latest plant & machinery, quality control lab & equipment, PLC controlled CNC machines, galvanization baths, powder coating, surface preparation & painting facilities.

Except for Mother Nature, virtually all thing be it buildings, skyscrapers, automobiles, bridges, railways to metro, flyovers, energy, irrigation, gas distribution, pipeline infrastructure, power distribution, rural electrification and more, have use of pipes, tubes & steel sections in them. No wonder they are the soul of any constructions and industrial infrastructure! Think about these sectors; think of VISHAL PIPES LTD. where products (Brand `VPL India`) are epitomes of excellence in quality, corroborated by National & International Standards.

We believe in pioneering changes to cater to an ever-evolving economy by infusing superior cutting edge technology and innovation. The company has multiplied its growth by introducing new products, improving quality and increasing productivity benchmarking the entire product line and eventually gaining the mind space of a large number of customers. Adherence to high quality and timely delivery are our USPs.
